

# The best solution for...

**Standard** ventilation capacity in Venlo greenhouses

## ValkTrussRail

Better climate control, more energy savings, higher CO<sub>2</sub> dosage, less maintenance

### Unique components ▼

#### ValkPushRod

The **ValkPushRod** acts as a push-up device for ventilation windows and works optimally in combination with the **ValkStabiMax** hinge.

- ✓ tailor-made calculated and produced
- ✓ strong
- ✓ prevents frost damage

 **ValkPushRod**

Click on the QR code 

#### ValkStabiMax

The **ValkStabiMax** hinge ensures a strong connection between the **ValkPushRods** and **ValkDriveTube**.

- ✓ prevents twisting **ValkPushRod**
- ✓ uniform ventilation gaps
- ✓ ensures perfect sealing

 **ValkStabiMax**
